CAREER

I played basketball when I was younger and have also practiced fitness for a long time, as well as some yoga. I have participated in a few amateur boutique photo shoots and have been photographed several times at electronic music and dance festivals.

I also have experience with content creation. I streamed on Twitch for 1–2 years and had some experience as an Instagram influencer in the past.

I graduated from an Anesthesia program, although I have never worked in the field. More recently, I have also started learning tattooing.

I am comfortable in front of the camera and enjoy adapting my expression and style to different concepts.
